

DUNGEON RUN – PLAYTESTING

BEWARE -> Before printing, there are blank triangles to print, these serve as board for dungeon tiles and should be in 4 triangular pieces each made of 4 smaller triangles.

WHAT TO FOCUS ON:

EXPLORATION:

- use all dungeon tiles at the start, and uncover 2 every turn OR every turn use 2 dungeon tiles and choose one -> because of adding placement sensitive dungeon tiles, we need to test again which variant is more fun to play.

- after every encounter (9 in total) upgrade 1 card (switch 1 P card for 1 F card following the rules in Forge chapter) -> if the card progres is fun and rewarding, is the player deck powerful enough in the process of the game?

COMBAT:

- If every enemy is balanced and fun
